

## 104556 to 104604—Continued.

104560. *ASTRAGALUS GLYCYPHYLLOS* L.  
Fabaceae. Milkvetch.

A prostrate spreading herbaceous perennial, native to Asia Minor.

For previous introduction see 78764.

104561 to 104563. *CHRYSANTHEMUM* spp.  
Asteraceae.

104561. *CHRYSANTHEMUM ALPINUM* L.

An alpine tufted perennial 2 to 6 inches high, ascending or upright, with the lower part of the stem covered with pinnately divided leaves. The golden-yellow flower heads are about 1 inch across. Native to central Europe.

104562. *CHRYSANTHEMUM DEMNATENSE* Murbeck.

A perennial composite about 1 foot high, with ashy pubescent, finely cut foliage, and flower heads with white disk flowers and pale rose ray flowers. Native to the Atlas Mountains in Morocco.

104563. *CHRYSANTHEMUM MAWII* Hook.  
f. Asteraceae.

A short woody perennial, native to Morocco, forming bushes up to 2 feet high, like the marguerite, with small woolly gray triangular-oblong pinnatifid leaves. The long-stalked flowers are 1 to 2 inches across and have red-purple disks and three-toothed white rays which are reddish on the back.

For previous introduction see 101777.

104564 to 104568. *CORONILLA* spp. Fa-  
baceae.

104564. *CORONILLA AUSTRICA* L.

An annual or biennial with a slender rootstock and prostrate or ascending stems up to 2 feet long. The leaves consist of about five pairs of obovate leaflets one-third of an inch long, and the white flowers are in small clusters. Native to southern Europe.

104565. *CORONILLA GLAUCA* Jusl.  
Honey coronilla.

Sea-green or day-smelling coronilla. A small round bush with beautiful glaucous green foliage and fragrant, pure-yellow flowers. Native to southern France.

104566. *CORONILLA JUNCEA* L.

A smooth gray-green shrub with rush-like branches, linear-oblong leaflets, and umbels of golden-yellow flowers. Native to southern France.

104567. *CORONILLA VARIA* L.  
Crownvetch.

A prostrate or ascending leguminous perennial, up to about 4 feet high, with a thick rootstalk, compound leaves, and pinkish flowers in dense umbels. It is native to central Europe.

For previous introduction see 78776.

104568. *CORONILLA VIMINALIS* Salisb.

A trailing shrub, native to Algeria, with odd-pinnate leaves composed of 13 to 21 leaflets and pale-red or red-striped white flowers in small umbels.

## 104556 to 104604—Continued.

104569. *DAUCUS CAROTA* L. Apiaceae.  
Carrot.

104570 to 104573. *DELPHINIUM* spp. Ra-  
nunculaceae. Larkspur.

104570. *DELPHINIUM HALTERATUM* Sibth.

An annual larkspur about 1 foot high, with finely divided leaves and light-blue flowers that appear from June to August. Native to the Mediterranean region.

104571. *DELPHINIUM PUBESCENS* DC.

An annual larkspur, pubescent throughout, with finely cut foliage and pale-violet or rose-colored flowers. Native to southern Europe and northern Africa.

104572. *DELPHINIUM REQUIENI* DC.

A biennial larkspur about 4 feet high, with three- or five-parted leaves and sky-blue flowers in lax racemes. Native to the islands of Corsica and Majorca.

104573. *DELPHINIUM STAPHISAGRIA* L.

A stout-stemmed perennial or biennial, soft-hairy throughout, 1 to 3 feet high. The leaves are five- to seven-lobed, sometimes three-cleft. The light-blue flowers are in a dense simple or branched raceme. Native to the Mediterranean countries.

For previous introduction see 91453.

104574 to 104576. *DIGITALIS* spp. Scro-  
phulariaceae. Foxglove.

104574. *DIGITALIS FERRUGINEA* L.

A biennial or perennial, 4 to 6 feet high, densely leafy, with long dense racemes of rusty-red flowers. Native to southern Europe.

104575. *DIGITALIS LANATA* Ehrh.

A perennial or biennial foxglove 2 to 3 feet high, with oblong or lanceolate leaves and grayish or creamy-yellow flowers about 1 inch long, in dense racemes. Native to southern Europe.

104576. *DIGITALIS THAPSI* L.

A perennial foxglove about 3 feet high, native to Spain. The rugose, decurrent leaves are ovate-oblong, and the purple red-dotted flowers are in a lax raceme. Native to Spain.

104577 to 104579. *LACTUCA* spp. Ci-  
choriaceae.

104577. *LACTUCA CHONDRILLAEFLORA* Bor.

A biennial 1 to 2 feet high, whitish hairy and much branched, with the lower leaves runcinate-pinnatifid with linear lobes. The flower heads are bright yellow.

104578. *LACTUCA SAGITTATA* Waldst.

A biennial, 3 to 4 feet high, with thin ovate-elongate or sagittate leaves up to 4 inches long and small yellow flower heads in a terminal corymb. Native to Hungary.

104579. *LACTUCA SIBIRICA* (L.) Benth.

A Siberian perennial about 2 feet high, with lanceolate denticulate leaves and corymbs of small blue flower heads.
